

Protect. Renew. Empower.

Irdeto is the world leader in digital platform cybersecurity, empowering businesses to innovate for a secure, connected future. Building on over 50 years of expertise in security, our services and solutions protect revenue, enable growth and fight cybercrime in video entertainment, video games, and connected industries including transport and health. With teams around the world, our greatest asset is our people and diversity is celebrated through an inclusive workplace, where everyone has an equal opportunity to drive innovation and support our success. We are the preferred security partner to empower a secure world where people can connect with confidence.

## Solutions and Services

### Video Entertainment

Irdeto is the leading provider of solutions and services to the media entertainment, broadband, and mobile industries. Our unique pay-TV operator heritage, our commitment to service, the quality of our solutions, and our flexibility to address our customers' needs makes us the trusted partner for the world's most admired, respected, and successful media and entertainment brands.

### Connected Transport

At Irdeto, we believe that connectivity shouldn't be feared as we provide solutions to prevent cyberattacks and help protect assets. Our products and solutions help to comply with cybersecurity regulations and meet standards in automotive, EV charging, rail and beyond.

### Connected Health

Irdeto offers layered cybersecurity solutions and services to medical device manufacturers of all sizes throughout the product lifecycle, from design to post-market. With more than 50 years of experience in security, we have the expertise needed to protect devices and applications in hostile environments similar to those increasingly faced by the healthcare community.

### Video Games

Denuvo by Irdeto is the global leader in providing security solutions for video games on desktop, console and mobile platforms. As gamers ourselves, we understand the industry from the inside out. We have a solid track record of protecting AAA titles for over a decade and collaborate with game developers of all sizes.
