

FROM PROBLEMS TO SOLUTIONS: KEY MANAGEMENT MADE EASY

FLEET CHALLENGES

MISMANAGEMENT OF KEYS

Lost and misplaced keys can be a financial burden for fleets.

Key replacement costs range from \$500 to \$1500 and can result in increased downtime for both the driver and the truck

MULTIPLE HUBS

86% of private fleets operate from multiple locations.

Challenges in ensuring uniformity and policy enforcement.

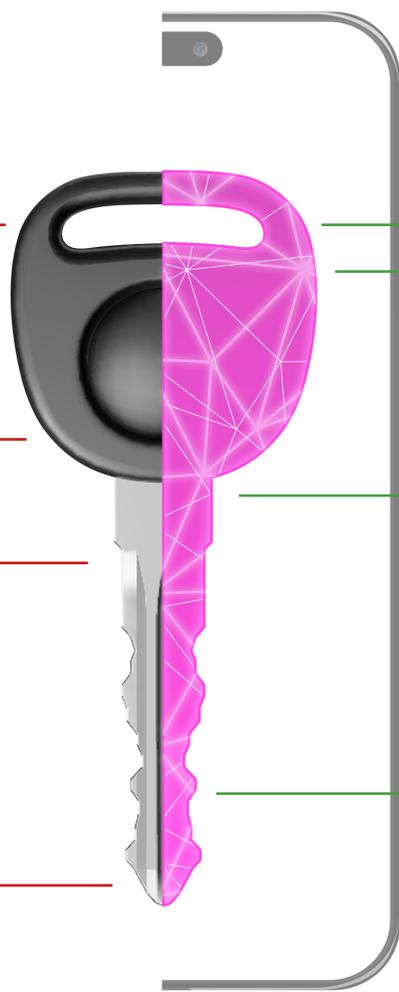

SECURITY & ACCOUNTABILITY

Multiple personnel have access to vehicles.

Monitoring and limiting vehicle access are challenging.

TIME LOSS

Wasted time searching for keys affects driver productivity.

DIGITAL KEY SOLUTION

OPERATIONAL EFFICIENCY

Eliminate downtime, optimize routes and monitor vehicle performance.

STREAMLINED YARD FUNCTIONS

Grant access to maintenance/yard staff without physical keys.

SEAMLESS INTEGRATION

Integrate with current Fleet Management System (FMS).

THE BENEFITS

Save money on key replacement costs, centralized functions and key distribution.

Instant access and reduced time to road.

Enhanced security with access monitoring.

Remote vehicle access capabilities (start, stop, lock, unlock).

Right driver, right truck, right route every time.
