

DIGITAL KEY SOLUTION FOR FLEETS

KEYSTONE

by **irde**to

DEALING WITH FLEET MANAGEMENT CHALLENGES?

Misplaced
keys?

Delayed vehicle
handovers?

Poor driver
accountability?

Compliance
struggles?

Trailer
mispulls?

Say goodbye to chaos due to mismanaged physical keys.
Your seamless key management starts with digital keys.

What are you waiting for?

WHAT DOES KEYSTONE BY IRDETO HAVE TO OFFER?

1

EFFORTLESS INTEGRATION

- Open APIs for FMS backend integration
- Usable 'out of the box' with mobile and cloud interfaces

2

SIMPLE INSTALLATION

- Non-destructive installation in under an hour
- Simple user access with SSO

3

DRIVER ACCESS CONTROL

- Track and control vehicle access
- Revoke access remotely and prevent unauthorized use

4

ELD VERIFICATION

- Forced ELD login
- Keep drivers accountable for their hours of service

5

LOCAL-FIRST APPROACH

- No network required once localized to device
- External keypad for backup entry

6

INSTANT TRAILER VERIFICATION

- Minimize downtime with the correct trailer attached, all the time
- Reduce operational errors and speed up operations

WHY KEYSTONE BY IRDETO?

Reduce unauthorized vehicle use

Improve driver accountability

Increase driver productivity

Eliminate physical keys

Reduce vehicle downtime

Get rid of costly trailer mispulls

KEYSTONE BY IRDETO TAKES THE CHAOS OUT OF FLEET MANAGEMENT

Enjoy improved ROI, stay ahead of regulations
and boost customer satisfaction.
