KEYSTONE BY IRDETO

FLEET CHALLENGES

Integration hassles
x Compatibility and operational disruptions from integration

Cybersecurity concerns
x Cyber threats cause breaches and data loss

System reliability
x Unexpected downtimes, productivity losses and operational inefficiencies

Complex implementations
x Disrupted timelines due to lengthy and complicated deployments

Connectivity challenges
x Undependable systems in remote areas

EXPERIENCE HASSLE-FREE INTEGRATION, SUPERIOR SECURITY AND IMPROVE YOUR FLEET'S PERFORMANCE

DIGITAL KEY SOLUTION

Effortless integration
✓ Open APIs for FMS backend integration
✓ Little integration required
✓ Usable 'out of the box' with mobile and cloud interfaces

Universal compatibility
✓ Compatible with your existing systems

Prime security
✓ Protection against all advanced cyber threats

Rock-solid reliability
✓ An uptime of over 99.95% validated over 33 million incident-free miles
✓ Simple user access with SSO

Standalone strength
✓ Independent with a reliable backup
✓ No integrations for POC pilot or deployment
✓ Installation to road in under an hour

Local-first
✓ No network required once localized to device
✓ External keypad for backup entry
